PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with a B.Sc. in Mathematics Education and Google Data Analytics Certification. Proficient in Excel, SQL, Power BI, and Python for data cleaning, analysis, and visualization. Experienced in applying analytics to healthcare and community projects to uncover insights that enhance performance and decision-making. Adept at transforming raw data into clear, actionable insights within collaborative environments.

KEY SKILLS

Tools: Excel (Power Query, Dashboards, Pivot Table, VBA, Macros), Power BI, SQL (Joins, Aggregations), Python (Pandas, NumPy)

Techniques: Data Cleaning, ETL, Trend Analysis, Reporting Automation

Soft Skills: Problem-Solving, Communication, Critical Thinking

SELECTED DATA ANALYTICS PROJECTS

Retail Sales Automation & Business Intelligence (VBA & Excel)

- Engineered an automated ERP system to centralize fragmented sales records, managing a 100-item inventory database through relational data mapping.
- Developed a multi-item Sales Order Form by using VBA macro-looping to solve the problem of manual data entry errors and fragmented transaction logs.
- Optimized data integrity by using dynamic sheet-protection toggles within the backend code to solve the risk of accidental formula deletion or unauthorized price modifications.
- Constructed an interactive Executive Dashboard by using Pivot Tables and Slicers to solve the lack of real-time visibility into revenue trends and product performance.
- Designed a custom UI/UX by using sidebar navigation and KPI cards to solve user accessibility issues, creating a standalone "app-like" experience for non-technical retail staff.

Sales KPI Dashboard (Power BI)

- Combined multi-branch sales data, creating metrics for revenue and gross profit.
- Visualized performance trends and identified seasonal patterns to optimize business resource allocation.

WORK EXPERIENCE

Data Analyst/Instructor | Megatek ICT Academy, *Lagos, Nigeria* Sept 2025 – Present

- Automated data validation and reporting using SQL & Excel, cutting manual work by 30%.
- Designed Power BI dashboards to improve insight delivery and decision-making.
- Trained 15+ learners per cohort, improving assessment scores by 25%.

Data Analyst (Volunteer) | Community Revolution CIC, *Remote* Oct 2025 – Present

- Built Power BI dashboards to track outreach and health-related impact metrics.
- Cleaned and standardized 500+ records, reducing data errors below 2%.
- Produced data-backed reports supporting community project funding.

EDUCATION

B.Sc. Mathematics Education**,** *University of Benin*

Diploma Computer Science**,** *Agege Vocational Institute*

Google Professional Data Analytics Certificate, *Coursera*
